A pure alternative...

ATAG

2009 New Products Supplement... **exclusive to the kitchen Specialist**

ATAG Innovation

Individuality and flexibility can be translated into the heart and soul of a kitchen. Therefore the appliances selected for inclusion must compliment and enhance the unique personality of the kitchen design concept. At ATAG we ensure that this key factor is always carefully considered. When new ATAG products are designed and created they are developed to reflect design trends, lifestyles, taste and in particular cooking interests and performance expectations. ATAG offers the Kitchen Specialist a brand and portfolio that is built on product and strategic differentiation; a reflection of our unique personality.

We are proud to introduce ATAG's latest innovation which is a supplement to our Built-in Appliance Collection 2008.

The heart and soul of the ultimate kitchen, a pure alternative... ATAG.

The Concept of ATAG

Differentiation

ATAG understands the need for differentiation in a crowded market. Our strategy provides the Kitchen Specialist with a brand that is built on the foundation of a 'limited distribution' policy. ATAG is 'exclusive to the Kitchen Specialist'! Our 60 year reputation for high quality, robust products remains a key element of our success, as does our ability to design and market outstanding products and features that create genuine differentiation within a new kitchen concept; leading to stimulated designers and content, satisfied consumers. ATAG makes a Kitchen Specialist and its customer different. ATAG is a pure alternative.

Exclusive to the Kitchen Specialist

In the UK and Ireland ATAG is 'exclusive to the Kitchen Specialist'. This highly focused strategy ensures our retail partners are professionals excelling in the design, supply and installation of 'kitchen concepts' that are capable of containing and being enhanced by ATAG products.

An independent Kitchen Specialist retailer choosing to support ATAG is making a key business decision that will create genuine differentiation. By comparison the established, main stream, dominant appliance brands follow a 'multi channel' distribution policy. A policy that clearly impacts the Kitchen Specialist. In partnership with ATAG a Kitchen Specialist is employing a strategy of differentiation.

A Rigid Internet Policy

ATAG's exclusivity to the Kitchen Specialist excludes other retail channels, including the Internet.

ATAG's 5 Year Guarantee

In the event of a problem ATAG provides a comprehensive 2 Years Parts and Labour Guarantee on all products. However, when a consumer purchases 4 ATAG products or more the guarantee immediately increases to 5 Years Parts and Labour – at no extra cost! Please note that the 5 year guarantee is supported by ATAG UK, it is not an insurance policy based 'extended warranty'. Please visit www.atagservice.co.uk for more information on and how to register an ATAG guarantee.

Unique Products and Features

The ATAG portfolio is packed with unique products and features that offer powerful benefits and genuine differentiation. Identify a consumer's needs and interests and create a solution via ATAG!

The MAGNA Design Line, Graphite Black Line and Core Range

ATAG has always been linked with quality and style through our distinct personality. The Concept of ATAG brochure highlights the key elements of ATAG's portfolio beginning with MAGNA Design Line, the ultimate collection of ATAG products, where the style, detail, finish and performance of each product reaches the very highest standards. Enter the Graphite Black Line! A soft, gentle finish that is devastatingly effective at blending with wooden furniture or at contrasting with contemporary finishes in the kitchen. When it is necessary to meet stringent budget requirements ATAG can and does compete! The Core Range comprises of a hand picked selection of appliances that meet all of our quality and performance requirements, but at a price to suit a broad spectrum of budgets.

QuliMax - Combi-steam oven

ATAG QuliMax. At home in your kitchen.

ATAG makes a kitchen complete and as the latest in kitchen technology, the outstanding design of the ATAG QuliMax ensures that it continues to do so. In combination with our outstanding CaféMax and CombiMax, the smooth lines, the Graphite Black or Stainless Steel materials and the design of the control panels make the QuliMax an essential part of an ‘ATAG’ kitchen. An entirely new ATAG cooking concept can now be literally and figuratively integrated into a kitchen.

Steaming ahead with QuliMax

Just as we use different ingredients, we naturally use different appliances for different types of cooking. However, there is a good chance that the average kitchen lacks the ultimate piece of equipment. The ATAG QuliMax is the first genuine all-rounder that combines steaming, cooking, grilling, roasting and defrosting functions in one appliance. In short, the ideal supplement to a single oven and hob to enable the preparation of almost anything: starters, side dishes, desserts, individually or as a complete menu. The options are almost unlimited.

Advantages

- Steam function for cooking without overcooking
- Retention of vitamins, minerals and structure in the food
- Large oven (36 litres)
- Preparation of several dishes at the same time and at different levels
- Heating of dishes without risk of drying out
- Hot-air circulation: top and bottom heat with ventilator, for an equal distribution of air around the dish
- Accurate temperature settings per 5°C. ‘Twin steam’ is created via double steam generation outside the oven: for an extra fast heating
- Memory function for favourite recipes
- Enamelled inner door: durable and easy to clean
- Grill element which can be fold down for easy cleaning
- Easy “steam-clean” programme
- No mains water connection required

ATAG QuliMax. A modern approach to steaming and cooking

Easier

No more over cooked food! Beautifully cooked potatoes and vegetables which retain their bite! In short, ATAG QuliMax is the ultimate cooking appliance. Easy to adjust and operate; a large quantity of clear, pre-set programmes enable the preparation of a whole menu at once with just one press of a button.

Tastier

Fresh vegetables, meat and fish have their own distinctive and delicious flavours. Yet they are often lost during cooking. ATAG QuliMax guarantees the flavour that every quality dish deserves. Fish and meat remain tender and succulent. Aromas and flavour are maximised, while steaming ensures that dishes retain perfectly their colour, structure and crunch. Which is exactly why steaming is the preferred preparation mode for professional chefs.

Cooking and roasting meat

The QuliMax ensures perfect results for fish, meat or chicken, no more drying out! The combination of fanned heat and steam ensures beautifully tender meat. A smart programme constantly creates the ideal conditions of humidity and heat for perfect meat or fish to ensure the dish is deliciously succulent on the inside and crispy on the outside.

Baking a perfect loaf

Baking bread in the QuliMax is a special process. First, the dough is prepared using steam after which it is baked using fanned heat. This ensures that the dough rises fully, producing bread with a wonderfully shiny crust and a light crumb. Moreover, it also keeps fresh for longer. This refined preparation method is also ideal for other types of baking, especially cakes!

Pre-programmed programmes

	Steaming (S)	Baking (B)	Grilling (G)	Roasting (R)	Ready-Made (C)	Defrosting (D)
1	sliced vegetables	cake	beef steak	whole chicken	frozen pizza	defrost meat
2	whole vegetables	tarte base	chicken drumsticks or wings	roast beef	frozen chips	defrost poultry
3	fish fillet	muffins	fish steak	rolled pork	frozen fish fingers	defrost fish
4	fish steak	bottom of biscuits	fish fillet	whole fish		defrost bread
5	prawns	bread	sausages	grilled vegetables		defrost fruit
6	chicken breast	yeast dough	hamburger	baked potatoes		
7	eggs	apple pie				
8	(peeled) potatoes	home-made pizza (fresh)				
9	white rice					
10	custard puddings					
11	fruit compote					
12	melting chocolate					

Always the best result

The ATAG QuliMax will appeal to every gourmet. There are over 40 pre-set programmes for steaming and baking, grilling, roasting and defrosting. After choosing the dish and starting the programme, the oven setting automatically starts. No need to enter a time or temperature and good results are always assured.

460mm Combi-Steam Oven
SQ4111B Stainless Steel
SQ4192B Graphite Black
Magna Design Line

Installation:
- Can be installed in a tall or base unit

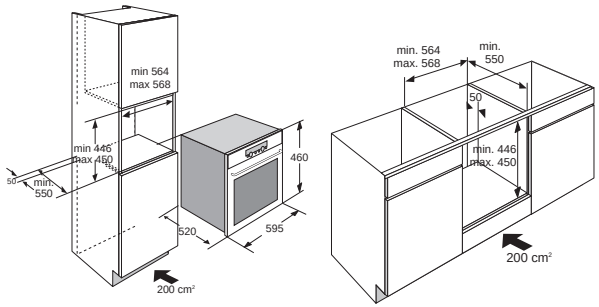
Styling:
- Exterior designed to compliment the ATAG CombiMax and CafeMax

Features:
- Twin steam: double steam generation outside the oven
- Grill element with bottom heating
- Ventilator for hot-air circulation
- Steam function for vegetables and fish and combi-function for meat, bread and other dishes
- Easy to use via 40 + pre-set programmes for steaming and baking, grilling, roasting and defrosting
- Temperature adjustable between per 5°C: 40°C - 100°C for the steam function, 40°C - 230°C for the oven and combi-function
- Heating of dishes without drying out
- Keeping warm function
- Defrosting function
- 36 litre capacity
- High quality, enamel interior
- 6 shelf heights
- Water reservoir with easy front access (1.2 litres)
- No mains water connection necessary
- Electronic control of temperature and steam flow
- LCD screen with temperature indication, time and programme
- Delayed start till 10 hours
- Grill element which can be fold down for easy cleaning
- 3100W power level

Special features:
- Memory function (3) for your own favourite recipe
- Automatic cleaning function “SteamClean”
- Automatic descale function
- Child lock

Accessories included:
- Grill tray
- Baking tray with small rack
- 2x stainless steel steam trays, in 1/3 and 2/3 gastronomy dimension

See page 22 for optional accessories



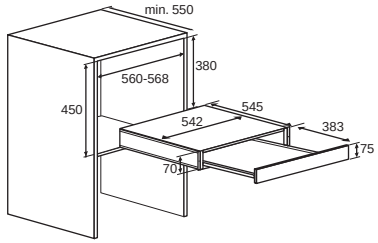
Graphite Black Plate Warmer and Storage Drawer

In order to achieve the perfect colour co-ordination in the kitchen, the popular ATAG Plate Warmer and Storage Drawer are now also available in Graphite Black.

70mm Storage Drawer
BD0792C Graphite Black

Styling:
- For combination with a product from the 390mm Compact Oven Line in a 450mm aperture

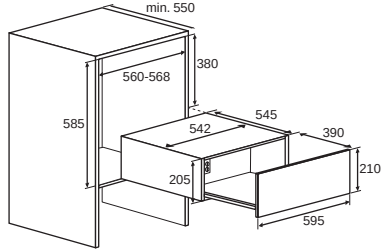
Features:
- Push-pull locking
- Telescopic pull-out drawer with anti-slip mat
- Storage drawer to usefully put away all kind of oven accessories



210mm High Plate Warmer
WD2192C Graphite Black

Styling:
- For combination with a product from the 390mm Compact Oven Line in a 585mm aperture

Features:
- Thermostatically controlled warming
- 6 large place settings
- 30 x 28 cm diameter plate capacity (depending on design)
- 80 x espresso cup capacity / 40 x tea cup capacity
- 90 minute timer with ‘switch off’ function
- Hot air fan system 30-70°C
- Telescopic pull-out drawer with anti-slip mat
- Maximum load bearing 20 kg
- 400W power level
- Illuminated on/off switch



Cooker Hoods

The ultimate range of Cooker Hoods has been expanded!

ATAG maintains a wide range of cooker hoods because a cooker hood occupies a focal position in a kitchen design concept and style and size options are essential. The expansive ATAG range has now even greater flexibility and individuality.

Eye-catching new designs that complement the theme and image of ATAG's personality are introduced and two popular existing chimney cooker hoods are now also available in Graphite Black.

New shallow depth canopy hoods, for installation in made-to-measure kitchen units, reflect the trends and ever fluid design dynamics of the Kitchen Specialist market place.

900mm Futura Style Chimney Hood
WS9092EM Graphite Black

Extraction type:
- Direct ducting (150mm - 120mm)
- Recirculation (via accessory kit)

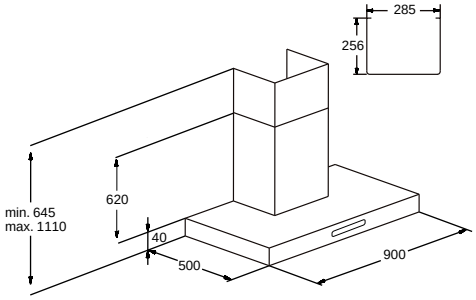
Installation:
- Wall mounted
- Mounting heights above:
- Gas hobs 650mm
- Induction/ceramic 550mm

Styling:
- Futura Style, chimney hood
- Finished in Graphite Black

Features:
- Use-controlled grease level indicator
- Over-run time (15 min.)
- 3 x aluminium filter cassettes
- 4 power levels
- Soft touch controls
- Halogen lights (2 x 20W)

Cleaning:
- Washable filters

Accessories:
- Recirculation filter kit ACC918



900mm Bloc Style Island Chimney Hood
ES9092EM Graphite Black

Extraction type:
- Direct ducting (150mm – 120mm)
- Recirculation (via accessory kit)

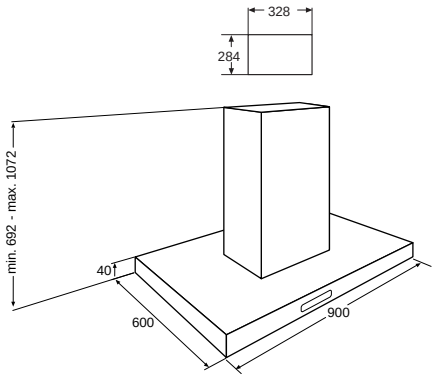
Installation:
- Ceiling mounted
- Mounting heights above:
- Gas hobs 650mm
- Induction/ceramic 550mm

Styling:
- Bloc Style chimney hood
- Finished in Graphite Black

Features:
- Use-controlled grease level indicator
- 3x aluminium filter cassettes
- High performance motor
- Over-run time (15 min.)
- 4 power levels
- Soft touch controls
- Halogen lighting (4 x 10W)

Cleaning:
- Washable filters

Accessories:
- Recirculation filter kit ACC918



900mm Bloc Style Chimney Hood
WS9011IM Stainless Steel

Extraction type:
- Direct ducting (150mm – 120mm)
- Recirculation (via accessory kit)

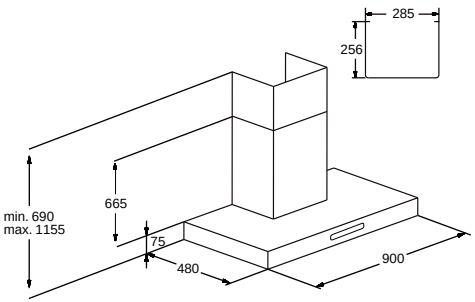
Installation:
- Wall mounted
- Mounting heights above:
- Gas hobs 650mm
- Induction/ceramic 550mm

Styling:
- Bloc Style chimney hood
- Finished in stainless steel

Features:
- 3 x aluminium filter cassettes with top layer
- High performance motor
- Over-run time
- 4 power levels
- Clean air-function
- Use-controlled grease level indicator
- Touch control+
- Halogen lighting (2 x 20W)

Cleaning:
- Washable filters

Accessories:
- Recirculation filter kit ACC918



600mm & 900 mm Telescopic Cooker Hood
WV6211LM Stainless Steel
WV9211LM Stainless Steel

Extraction type:
- Direct ducting (150mm – 120mm)
- Recirculation (via accessory kit)

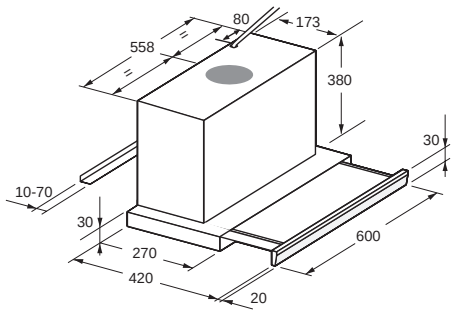
Installation:
- Unit mounted
- Compact motor housing offers space in upper case for e.g. spice rack
- Mounting heights above:
- Gas hobs 650mm
- Induction/ceramic 550mm

Styling:
- Slim, stainless steel visor
- Finished in stainless steel
- Soft touch controls

Features:
- High efficiency motor
- 3 power levels + full power
- Automatic 15 minute over-run
- Clean air-function
- Use-controlled grease level indicator
- 2 x stainless steel filter cassettes (WV6211LM)
- 4 x stainless steel filter cassettes (WV9211LM)
- Halogen lights (2 x 20W)

Cleaning:
- Washable filters

Accessories:
- Recirculation filter kit ACC918



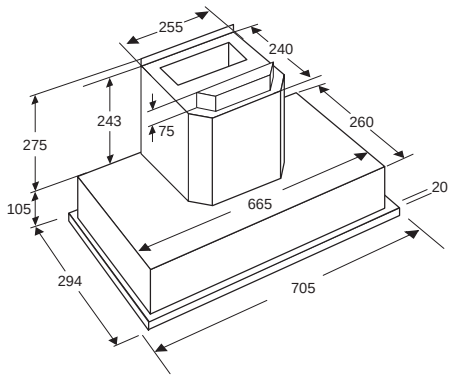
705mm Canopy Cooker Hood
WU7011GM Stainless Steel

Extraction type:
- Direct ducting (150mm – 120mm)

Installation:
- Unit mounted
- Mounting heights above:
- Gas hobs 650mm
- Induction/ceramic 550mm

Styling:
- Fully integrated canopy installation
- Finished in stainless steel
- Electronic tip touch controls

Features:
- High performance motor
- 4 power levels
- Automatic 15 minute over-run
- Clean air-function
- Use-controlled grease level indicator
- Halogen lights (2 x 20W)



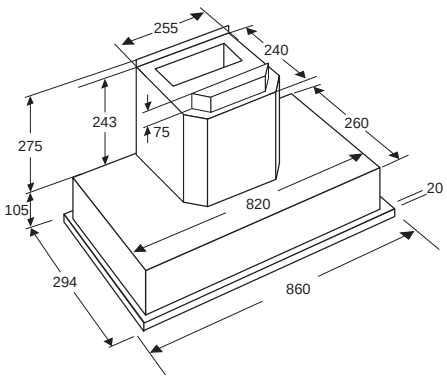
900mm Semi-professional Canopy Hood
WU9011GM Stainless Steel

Extraction type:
• Direct ducting (150mm – 120mm)

Installation:
• Unit mounted
• Mounting heights above:
- Gas hobs 650mm
- Induction/ceramic 550mm

Styling:
• Fully integrated canopy installation
• Finished in stainless steel
• Electronic tip touch controls

Features:
• High performance motor
• 4 power levels
• Automatic 15 minute over-run
• Clean air-function
• Use-controlled grease level indicator
• Halogen lights (2 x 20W)



1500mm wide Built-in unit motorless ceiling model
Magna Design Line
WU1511PX Stainless Steel

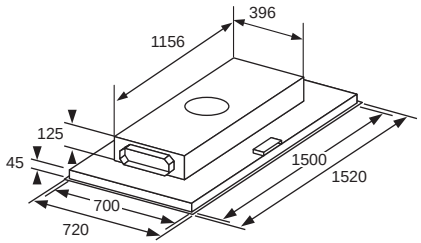
features
• can be integrated into the ceiling
• 4 speeds
• 4 metal filters (washable)
• remote control

model
• perimeter extraction
• run-on time 20 mins.
• halogen lighting 4 x 20 W

additional
• suitable for external motor WM105BI
• duct Ø180 mm top, or flat 90 x 200 mm left/right

- connected load 80 W + motor

optional
• ACC1511PX ducting kit

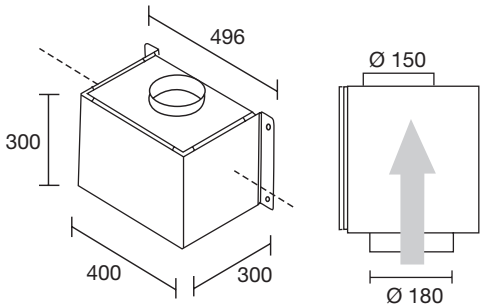


External motor
WM105BI Stainless Steel

• for indoor installation
• capacity (per hour): 1,060 m3
• control cable 8 metres
• nr. of settings 4

additional
• duct Ø 180 mm

- connected load 215 W



Built-in Refrigerator and Freezer

State of the art refrigeration

ATAG is expanding its refrigerator and freezer line with a new model: a freezer designed for an aperture of 1020mm, available with door-on-door or door with sliding door assembly system. For symmetrical design, and the potential to include cooking appliances above them at eye level, consider combining this product with one of ATAG's refrigerators of the same size.

1020mm Built-in Freezer
KD7102CN Door-on-door
KS4102CN Sliding door

Freezer features:
- Reversible door
- Energy rating A+ (door-on-door)
- Energy rating A (sliding door)
- No Frost
- Very low energy consumption (kWh/24h)
  KD7102CN: 0.584

Dishwashers

ATAG Dishwashers go even further

ATAG's luxury line of dishwashers has been updated with several technical and user-friendly features and additions.

The inner door has a revised design that enables the use of more spacious baskets in order that a full 13 place settings can be loaded. Catering for demanding, modern lifestyles and efficiency is ATAG's priority.

All of our dishwashers are classified in the highest quality categories for cleaning and drying performance and energy consumption. The newest ATAG dishwashers are so quiet that it is difficult to hear if the product is running, for example the latest key MAGNA Design Line model produces just 41 dB.

600mm Fully Integrated Dishwasher
VA6511NT

Installation:
- Height adjustable from the front
- Can be installed in a tall housing unit
- Fast-assembly system

Energy rating:
- AAA

Noise Level:
- 48dB(A)

Water consumption:
- 14 litres

Controls:

The ATAG Core Range

The Core Range ensures ATAG can be included in price sensitive, competitive kitchen designs. Only products that strictly meet the ATAG criteria for performance, quality and functionality have been selected for inclusion in the Core Range.

Each product is priced to allow ATAG to compete with the market place's dominant premium brands. ATAG's exclusivity to the Kitchen Specialist creates opportunity and flexibility through the Core Range that, when combined with the broader ATAG offer, cannot be rivalled.

Remember that when 4 Core Products or more are purchased the ATAG 5 Year Parts and Labour Guarantee is triggered - at no extra cost!

For detailed technical specifications and built-in drawings of the Core Range we refer to the 2008 Built-in Appliances Collection.

A pure alternative...

ATAG

2009 New Products Supplement... **exclusive to the kitchen Specialist**

ATAG_omslag_uk.indd 1 12-3-2009 11:15:53

ATAG Innovation

Individuality and flexibility can be translated into the heart and soul of a kitchen. Therefore the appliances selected for inclusion must compliment and enhance the unique personality of the kitchen design concept. At ATAG we ensure that this key factor is always carefully considered. When new ATAG products are designed and created they are developed to reflect design trends, lifestyles, taste and in particular cooking interests and performance expectations. ATAG offers the Kitchen Specialist a brand and portfolio that is built on product and strategic differentiation; a reflection of our unique personality.

We are proud to introduce ATAG's latest innovation which is a supplement to our Built-in Appliance Collection 2008.

The heart and soul of the ultimate kitchen, a pure alternative... ATAG.

The Concept of ATAG

Differentiation

ATAG understands the need for differentiation in a crowded market. Our strategy provides the Kitchen Specialist with a brand that is built on the foundation of a 'limited distribution' policy. ATAG is 'exclusive to the Kitchen Specialist'! Our 60 year reputation for high quality, robust products remains a key element of our success, as does our ability to design and market outstanding products and features that create genuine differentiation within a new kitchen concept; leading to stimulated designers and content, satisfied consumers. ATAG makes a Kitchen Specialist and its customer different. ATAG is a pure alternative.

Exclusive to the Kitchen Specialist

In the UK and Ireland ATAG is 'exclusive to the Kitchen Specialist'. This highly focused strategy ensures our retail partners are professionals excelling in the design, supply and installation of 'kitchen concepts' that are capable of containing and being enhanced by ATAG products.

An independent Kitchen Specialist retailer choosing to support ATAG is making a key business decision that will create genuine differentiation. By comparison the established, main stream, dominant appliance brands follow a 'multi channel' distribution policy. A policy that clearly impacts the Kitchen Specialist. In partnership with ATAG a Kitchen Specialist is employing a strategy of differentiation.

A Rigid Internet Policy

ATAG's exclusivity to the Kitchen Specialist excludes other retail channels, including the Internet.

ATAG uk 2009.indd 2 12-3-2009 12:52:24

ATAG's 5 Year Guarantee

In the event of a problem ATAG provides a comprehensive 2 Years Parts and Labour Guarantee on all products. However, when a consumer purchases 4 ATAG products or more the guarantee immediately increases to 5 Years Parts and Labour – at no extra cost! Please note that the 5 year guarantee is supported by ATAG UK, it is not an insurance policy based 'extended warranty'. Please visit www.atagservice.co.uk for more information on and how to register an ATAG guarantee.

Unique Products and Features

The ATAG portfolio is packed with unique products and features that offer powerful benefits and genuine differentiation. Identify a consumer's needs and interests and create a solution via ATAG!

The MAGNA Design Line, Graphite Black Line and Core Range

ATAG has always been linked with quality and style through our distinct personality. The Concept of ATAG brochure highlights the key elements of ATAG's portfolio beginning with MAGNA Design Line, the ultimate collection of ATAG products, where the style, detail, finish and performance of each product reaches the very highest standards. Enter the Graphite Black Line! A soft, gentle finish that is devastatingly effective at blending with wooden furniture or at contrasting with contemporary finishes in the kitchen. When it is necessary to meet stringent budget requirements ATAG can and does compete! The Core Range comprises of a hand picked selection of appliances that meet all of our quality and performance requirements, but at a price to suit a broad spectrum of budgets.

ATAG uk 2009.indd 3 12-3-2009 15:21:31

QuliMax - Combi-steam oven

ATAG QuliMax. At home in your kitchen.

ATAG makes a kitchen complete and as the latest in kitchen technology, the outstanding design of the ATAG QuliMax ensures that it continues to do so. In combination with our outstanding CaféMax and CombiMax, the smooth lines, the Graphite Black or Stainless Steel materials and the design of the control panels make the QuliMax an essential part of an ‘ATAG’ kitchen. An entirely new ATAG cooking concept can now be literally and figuratively integrated into a kitchen.

ATAG uk 2009.indd 4 12-3-2009 12:29:52

Steaming ahead with QuliMax

Just as we use different ingredients, we naturally use different appliances for different types of cooking. However, there is a good chance that the average kitchen lacks the ultimate piece of equipment. The ATAG QuliMax is the first genuine all-rounder that combines steaming, cooking, grilling, roasting and defrosting functions in one appliance. In short, the ideal supplement to a single oven and hob to enable the preparation of almost anything: starters, side dishes, desserts, individually or as a complete menu. The options are almost unlimited.

Advantages

- Steam function for cooking without overcooking
- Retention of vitamins, minerals and structure in the food
- Large oven (36 litres)
- Preparation of several dishes at the same time and at different levels
- Heating of dishes without risk of drying out
- Hot-air circulation: top and bottom heat with ventilator, for an equal distribution of air around the dish
- Accurate temperature settings per 5°C. ‘Twin steam’ is created via double steam generation outside the oven: for an extra fast heating
- Memory function for favourite recipes
- Enamelled inner door: durable and easy to clean
- Grill element which can be fold down for easy cleaning
- Easy “steam-clean” programme
- No mains water connection required

ATAG uk 2009.indd 5 12-3-2009 10:17:52

ATAG QuliMax. A modern approach to steaming and cooking

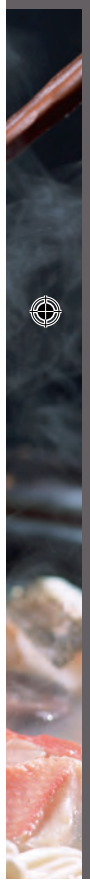
Easier

No more over cooked food! Beautifully cooked potatoes and vegetables which retain their bite! In short, ATAG QuliMax is the ultimate cooking appliance. Easy to adjust and operate; a large quantity of clear, pre-set programmes enable the preparation of a whole menu at once with just one press of a button.

Tastier

Fresh vegetables, meat and fish have their own distinctive and delicious flavours. Yet they are often lost during cooking. ATAG QuliMax guarantees the flavour that every quality dish deserves. Fish and meat remain tender and succulent. Aromas and flavour are maximised, while steaming ensures that dishes retain perfectly their colour, structure and crunch. Which is exactly why steaming is the preferred preparation mode for professional chefs.

ATAG uk 2009.indd 6 12-3-2009 10:18:00



Cooking and roasting meat

The QuliMax ensures perfect results for fish, meat or chicken, no more drying out! The combination of fanned heat and steam ensures beautifully tender meat. A smart programme constantly creates the ideal conditions of humidity and heat for perfect meat or fish to ensure the dish is deliciously succulent on the inside and crispy on the outside.

Baking a perfect loaf

Baking bread in the QuliMax is a special process. First, the dough is prepared using steam after which it is baked using fanned heat. This ensures that the dough rises fully, producing bread with a wonderfully shiny crust and a light crumb. Moreover, it also keeps fresh for longer. This refined preparation method is also ideal for other types of baking, especially cakes!

ATAG uk 2009.indd 7 12-3-2009 10:18:27

Pre-programmed programmes

	Steaming (S)	Baking (B)	Grilling (G)	Roasting (R)	Ready-Made (C)	Defrosting (D)
1	sliced vegetables	cake	beef steak	whole chicken	frozen pizza	defrost meat
2	whole vegetables	tarte base	chicken drumsticks or wings	roast beef	frozen chips	defrost poultry
3	fish fillet	muffins	fish steak	rolled pork	frozen fish fingers	defrost fish

Always the best result

The ATAG QuliMax will appeal to every gourmet. There are over 40 pre-set programmes for steaming and baking, grilling, roasting and defrosting. After choosing the dish and starting the programme, the oven setting automatically starts. No need to enter a time or temperature and good results are always assured.

460mm Combi-Steam Oven
SQ4111B Stainless Steel
SQ4192B Graphite Black
Magna Design Line

Installation:
- Can be installed in a tall or base unit

Styling:
- Exterior designed to compliment the ATAG CombiMax and CafeMax

Features:
- Twin steam: double steam generation outside the oven
- Grill element with bottom heating
- Ventilator for hot-air circulation
- Steam function for vegetables and fish and combi-function for meat, bread and other dishes
- Easy to use via 40 + pre-set programmes for steaming and baking, grilling, roasting and defrosting
- Temperature adjustable between per 5°C: 40°C - 100°C for the steam function, 40°C - 230°C for the oven and combi-function
- Heating of dishes without drying out
- Keeping warm function
- Defrosting function
- 36 litre capacity
- High quality, enamel interior
- 6 shelf heights
- Water reservoir with easy front access (1.2 litres)
- No mains water connection necessary
- Electronic control of temperature and steam flow
- LCD screen with temperature indication, time and programme
- Delayed start till 10 hours
- Grill element which can be fold down for easy cleaning
- 3100W power level

Special features:
- Memory function (3) for your own favourite recipe
- Automatic cleaning function “SteamClean”
- Automatic descale function
- Child lock

Accessories included:
- Grill tray
- Baking tray with small rack
- 2x stainless steel steam trays, in 1/3 and 2/3 gastronomy dimension

See page 22 for optional accessories

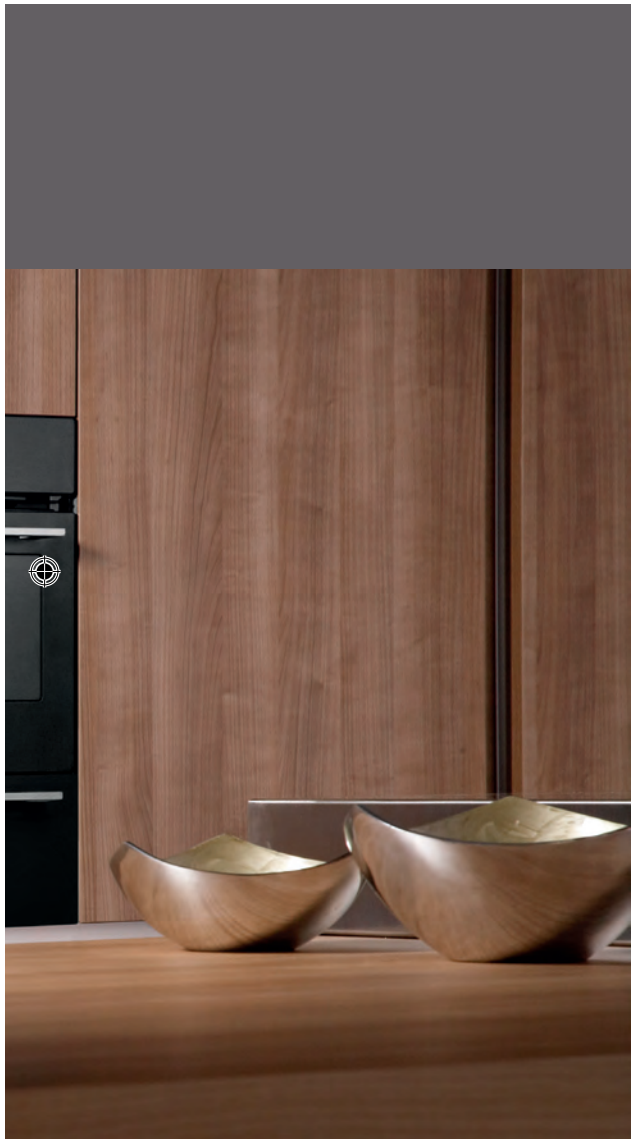
Graphite Black Plate Warmer and Storage Drawer

In order to achieve the perfect colour co-ordination in the kitchen, the popular ATAG Plate Warmer and Storage Drawer are now also available in Graphite Black.

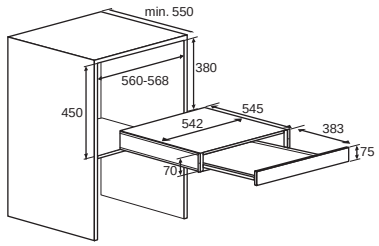
ATAG uk 2009.indd 10 12-3-2009 12:31:27



70mm Storage Drawer
BD0792C Graphite Black

Styling:
- For combination with a product from the 390mm Compact Oven Line in a 450mm aperture

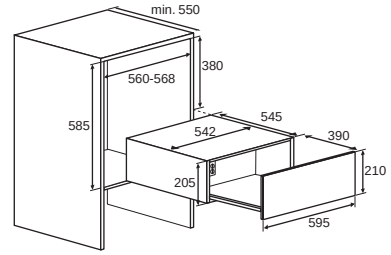
Features:
- Push-pull locking
- Telescopic pull-out drawer with anti-slip mat
- Storage drawer to usefully put away all kind of oven accessories



210mm High Plate Warmer
WD2192C Graphite Black

Styling:
- For combination with a product from the 390mm Compact Oven Line in a 585mm aperture

Features:
- Thermostatically controlled warming
- 6 large place settings
- 30 x 28 cm diameter plate capacity (depending on design)
- 80 x espresso cup capacity / 40 x tea cup capacity
- 90 minute timer with ‘switch off’ function
- Hot air fan system 30-70°C
- Telescopic pull-out drawer with anti-slip mat
- Maximum load bearing 20 kg
- 400W power level
- Illuminated on/off switch



ATAG uk 2009.indd 11 12-3-2009 12:32:35

Cooker Hoods

The ultimate range of Cooker Hoods has been expanded!

ATAG maintains a wide range of cooker hoods because a cooker hood occupies a focal position in a kitchen design concept and style and size options are essential. The expansive ATAG range has now even greater flexibility and individuality.

Eye-catching new designs that complement the theme and image of ATAG's personality are introduced and two popular existing chimney cooker hoods are now also available in Graphite Black.

New shallow depth canopy hoods, for installation in made-to-measure kitchen units, reflect the trends and ever fluid design dynamics of the Kitchen Specialist market place.

ATAG uk 2009.indd 12 12-3-2009 10:52:39

900mm Futura Style Chimney Hood
WS9092EM Graphite Black

Extraction type:
- Direct ducting (150mm - 120mm)
- Recirculation (via accessory kit)

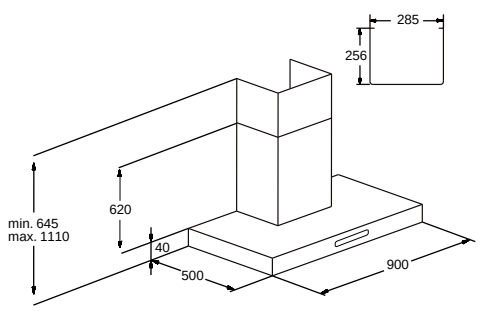
Installation:
- Wall mounted
- Mounting heights above:
- Gas hobs 650mm
- Induction/ceramic 550mm

Styling:
- Futura Style, chimney hood
- Finished in Graphite Black

Features:
- Use-controlled grease level indicator
- Over-run time (15 min.)
- 3 x aluminium filter cassettes
- 4 power levels
- Soft touch controls
- Halogen lights (2 x 20W)

Cleaning:
- Washable filters

Accessories:
- Recirculation filter kit ACC918



900mm Bloc Style Island Chimney Hood
ES9092EM Graphite Black

Extraction type:
- Direct ducting (150mm – 120mm)
- Recirculation (via accessory kit)

Installation:
- Ceiling mounted
- Mounting heights above:
- Gas hobs 650mm
- Induction/ceramic 550mm

Styling:
- Bloc Style chimney hood
- Finished in Graphite Black

Features:
- Use-controlled grease level indicator
- 3x aluminium filter cassettes
- High performance motor
- Over-run time (15 min.)
- 4 power levels
- Soft touch controls
- Halogen lighting (4 x 10W)

Cleaning:
- Washable filters

Accessories:
- Recirculation filter kit ACC918

900mm Bloc Style Chimney Hood
WS9011IM Stainless Steel

Extraction type:
- Direct ducting (150mm – 120mm)
- Recirculation (via accessory kit)

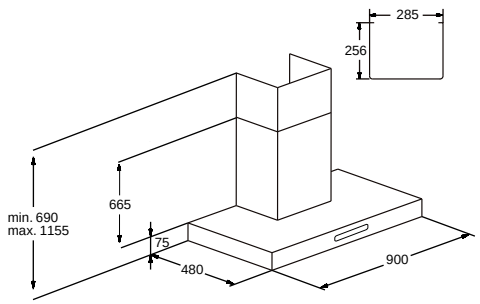
Installation:
- Wall mounted
- Mounting heights above:
- Gas hobs 650mm
- Induction/ceramic 550mm

Styling:
- Bloc Style chimney hood
- Finished in stainless steel

Features:
- 3 x aluminium filter cassettes with top layer
- High performance motor
- Over-run time
- 4 power levels
- Clean air-function
- Use-controlled grease level indicator
- Touch control+
- Halogen lighting (2 x 20W)

Cleaning:
- Washable filters

Accessories:
- Recirculation filter kit ACC918



600mm & 900 mm Telescopic Cooker Hood
WV6211LM Stainless Steel
WV9211LM Stainless Steel

Extraction type:
- Direct ducting (150mm – 120mm)
- Recirculation (via accessory kit)

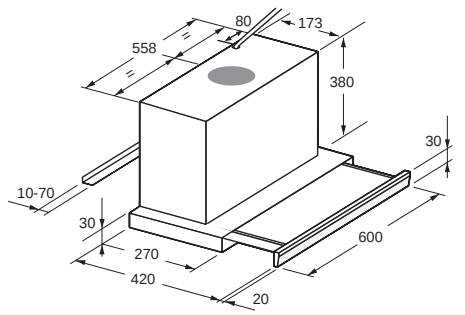
Installation:
- Unit mounted
- Compact motor housing offers space in upper case for e.g. spice rack
- Mounting heights above:
- Gas hobs 650mm
- Induction/ceramic 550mm

Styling:
- Slim, stainless steel visor
- Finished in stainless steel
- Soft touch controls

Features:
- High efficiency motor
- 3 power levels + full power
- Automatic 15 minute over-run
- Clean air-function
- Use-controlled grease level indicator
- 2 x stainless steel filter cassettes (WV6211LM)
- 4 x stainless steel filter cassettes (WV9211LM)
- Halogen lights (2 x 20W)

Cleaning:
- Washable filters

Accessories:
- Recirculation filter kit ACC918



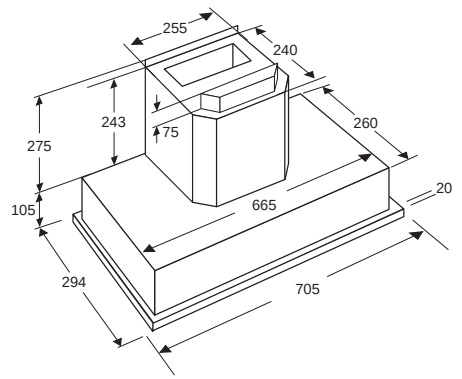
705mm Canopy Cooker Hood
WU7011GM Stainless Steel

Extraction type:
- Direct ducting (150mm – 120mm)

Installation:
- Unit mounted
- Mounting heights above:
- Gas hobs 650mm
- Induction/ceramic 550mm

Styling:
- Fully integrated canopy installation
- Finished in stainless steel
- Electronic tip touch controls

Features:
- High performance motor
- 4 power levels
- Automatic 15 minute over-run
- Clean air-function
- Use-controlled grease level indicator
- Halogen lights (2 x 20W)



ATAG uk 2009.indd 14 12-3-2009 12:34:27

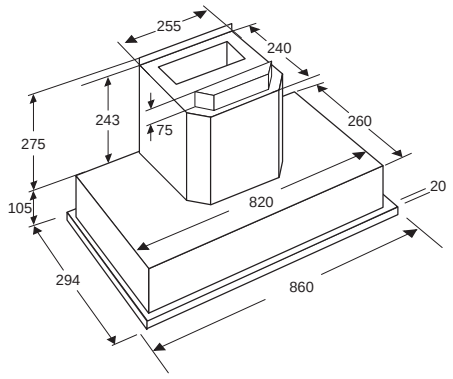
900mm Semi-professional Canopy Hood
WU9011GM Stainless Steel

Extraction type:
• Direct ducting (150mm – 120mm)

Installation:
• Unit mounted
• Mounting heights above:
- Gas hobs 650mm
- Induction/ceramic 550mm

Styling:
• Fully integrated canopy installation
• Finished in stainless steel
• Electronic tip touch controls

Features:
• High performance motor
• 4 power levels
• Automatic 15 minute over-run
• Clean air-function
• Use-controlled grease level indicator
• Halogen lights (2 x 20W)



1500mm wide Built-in unit motorless ceiling model
Magna Design Line

Built-in Refrigerator and Freezer

State of the art refrigeration

ATAG is expanding its refrigerator and freezer line with a new model: a freezer designed for an aperture of 1020mm, available with door-on-door or door with sliding door assembly system. For symmetrical design, and the potential to include cooking appliances above them at eye level, consider combining this product with one of ATAG's refrigerators of the same size.

Dishwashers

ATAG Dishwashers go even further

ATAG's luxury line of dishwashers has been updated with several technical and user-friendly features and additions.

The inner door has a revised design that enables the use of more spacious baskets in order that a full 13 place settings can be loaded. Catering for demanding, modern lifestyles and efficiency is ATAG's priority.

All of our dishwashers are classified in the highest quality categories for cleaning and drying performance and energy consumption. The newest ATAG dishwashers are so quiet that it is difficult to hear if the product is running, for example the latest key MAGNA Design Line model produces just 41 dB.

ATAG uk 2009.indd 18 12-3-2009 10:56:24

600mm Fully Integrated Dishwasher
VA6511NT

Installation:
- Height adjustable from the front
- Can be installed in a tall housing unit
- Fast-assembly system

Energy rating:
- AAA

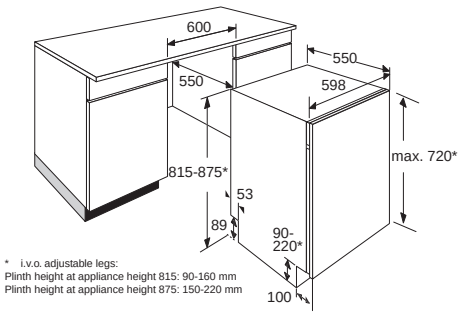
Noise Level:
- 48dB(A)

Water consumption:
- 14 litres

Controls:
- Push button

Programmes and Temperatures:
- 4 programmes
- 4 temperatures:
- Intensive (70°C)
- Normal (65°C)
- Eco (50°C)
- Fast (45°C)

Features:
- 13 place settings
- Light grey baskets:
- Cutlery basket
- Top basket with cup / wine glass holder
- Knife holder
- Bottom basket equipped with two flexible folding supports for flexible division of pans and plates
- Delayed start (3-6-9 hours)
- Audible programme-end signal
- LED salt/rinse aid indicator
- Special facility to fully dissolve a tablet
- Aqua stop
- Black control panel
- Integrated heating element



* i.v.o. adjustable legs:
Plinth height at appliance height 815: 90-160 mm
Plinth height at appliance height 875: 150-220 mm

600mm Fully Integrated Dishwasher
600mm Maxi-Line Fully Integrated Dishwasher (865mm high)
VA6511RT
VA9511RT

Installation:
- Height adjustable from the front
- Maxi-Line 865mm high
- Can be installed in a tall housing unit
- Fast-assembly system

Energy rating:
- AAA

Noise Level:
- 48dB(A)

Water consumption:
- 12 litres

Controls:
- Push button

Programmes and Temperatures:
- 5 programmes
- 4 temperatures:
- Intensive with pre-rinse (70°C)
- Auto-programme with pre-rinse
- Eco with pre-rinse (50°C)
- Fast (45°C)
- Separate pre-rinse programme

Features:
- 13 place settings
- Half load
- Easymatic, height adjustable top basket
- Light grey baskets:
- Cutlery basket which can be separated
- Top basket with cup / wine glass holder
- Knife holder
- Bottom basket equipped with two flexible folding supports for flexible division of pans and plates
- Delayed start (1-24 hours)
- Time reduction till 50%
- Time remaining indicator
- Audible programme-end signal
- LED salt/rinse aid indicator
- Aqua stop
- Integrated heating element
- Automatic 3-in1 and 4-in1 tablet function
- Stainless steel control panel

Programmes and Temperatures:
- 6 programmes
- 6 temperatures:
- Auto-programme with pre-rinse 65°C - 75°C
- Auto-programme with pre-rinse 45°C - 65°C
- Eco with pre-rinse (50°C)
- Fast (45°C)
- Delicate programme with auto (35°C - 45°C)
- Separate pre-rinse programme

Features:
- 13 place settings
- Half load
- Easymatic, height adjustable top basket
- Light grey baskets:
- Cutlery basket which can be separated
- Top basket with cup / wine glass holder
- Knife holder
- Flower vase holder
- Bottom basket equipped with two flexible folding supports for flexible division of pans and plates
- Delayed start (1-24 hours)
- Time reduction till 50%
- Time remaining indicator
- Glass protection
- Audible programme-end signal
- End of programme indicator LED light shines on the floor
- Cleaning shower for tall plates and pans
- LED salt/rinse aid indicator
- Aqua stop
- Integrated heating element
- Automatic 3-in1 and 4-in1 tablet function
- Ergonomically designed rinse aid fill system
- Heat exchanger drying system
- Stainless steel control panel
- Automatic sensor programmes:
- Water sensor
- Load sensor

ATAG uk 2009.indd 19 12-3-2009 12:42:33

The ATAG Core Range

The Core Range ensures ATAG can be included in price sensitive, competitive kitchen designs. Only products that strictly meet the ATAG criteria for performance, quality and functionality have been selected for inclusion in the Core Range.

Each product is priced to allow ATAG to compete with the market place's dominant premium brands. ATAG's exclusivity to the Kitchen Specialist creates opportunity and flexibility through the Core Range that, when combined with the broader ATAG offer, cannot be rivalled.

Remember that when 4 Core Products or more are purchased the ATAG 5 Year Parts and Labour Guarantee is triggered - at no extra cost!

For detailed technical specifications and built-in drawings of the Core Range we refer to the 2008 Built-in Appliances Collection.
